PROJECTS

INT-HOUSE | Personal Project — APR. 2021 - CURRENT

- Building a web app for creating and managing in-house video game leagues (Node.js, Express.js, MongoDB, EJS, jQuery, CSS)
- Allows users to create a private video game leagues with their friends, includes team builder, rating system, and leaderboard

CRAIGSLIST REDESIGN | BCIT End-of-term Project — APR. 2021 - MAY. 2021

- Worked with a team of designers to rebuild Craigslist from scratch, adding mobile responsiveness and improving the UX (Node.js, Express.js, EJS, SCSS, JQuery, MySQL).
- Allows users to create ads to buy and sell items. Includes a robust relational database, user accounts, geolocation, and multiple images

HEALTH ALERT | Hack the Break 24hr Hackathon — MAR. 2021

- Worked with a team of five to develop a web app that connects emergency callers to first responders and hospitals (Node.js, Express.js, EJS, Bulma)
- Allows callers to send emergency information to first responders and first responders to share live diagnostic data with hospitals

BON VOYAGE | NW Hacks 24hr Hackathon — JAN. 2021

- Collaborated with a team of four to develop a ride sharing web app using HTML, CSS, JavaScript, and Inkscape for icons and logo design
- Pay-it-forward economy where users can request a ride in exchange for a token, and tokens can only be obtained by giving rides

WORK EXPERIENCE

VANCOUVER POLICE MUSEUM & ARCHIVES

Front End Web Design — AUG. 2020 - SEP. 2020

- Remapped existing website and used Wix to design a new site with greater functionality, improved design and navigation
- Created documentation and style guide as reference for museum staff to continue to maintain the site on their own

EDUCATION

BRITISH COLUMBIA INSTITUTE OF TECHNOLOGY - CGPA 92%

Diploma, Full Stack Web Development — SEP. 2020 - JUN. 2022

SIMON FRASER UNIVERSITY - CGPA 3.63

Bachelor of Arts (Honours), Criminology — SEP. 2013 - MAY. 2018
